2008 Interagency Subcommittee on Employment (ISE) State of the Science Conference

“Strengthening the Intersection of Demand-Side and Supply-Side Disability Employment Research: Toward a Coordinated Federal Research Agenda”

Hilton Crystal City Reagan Airport, 2399 Jefferson Davis Highway, Arlington, VA 22202

June 23–25, 2008

About the Conference: The conference will be an interactive, working meeting that will result in concrete recommendations the ISE can use to establish a five-year interagency research agenda. The conference will concentrate on the following core themes:

- ▶ **Business and Employment:** A Global and Technology Driven Environment;
- ▶ **Disability and Workforce Experience and Needs:** Issues and Research;
- ▶ **Health:** A Competitive Disability Workforce; and
- ▶ **Government Policies and Practices:** Role and Effect.

Target Audiences:

- ▶ Senior policy representatives from all ISE federal agency participants;
- ▶ Additional U.S. government officials and experts;
- ▶ Employers engaged or interested in creating 21st century jobs and businesses;
- ▶ Leading disability and business researchers;
- ▶ Individuals with disabilities;
- ▶ Leaders from the disability advocacy community; and
- ▶ Other individuals, associations, educational institutions, and governmental entities engaged in promoting inclusion of (skilled) persons with disabilities in America’s workforce.
